

It is patent
electioneering to
air an anti-Kerry
just documentary
days before the
election. Sinclair
should not be
allowed to do so,
nevermind to force
thier stations to
air it. I'm sure if
Fahrenheit 911 was
aired then, whoever
did so would have
their license
pulled.

We need news about
issues that matter.,
not misleading
"documentaries"
which are incredibly
biased, especially
the last few weeks
before we go to the
polls, when their
misstatements have
little time to be
explored.

License renewal
should not be
granted to a station
using its publicly
granted airways for
such political
purposes.

Thank you.
